## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

### **1 Corporate Information and Going Concern**

CoTec Holdings Corp. (the “Company”) was incorporated on December 15, 1986, under the laws of the Province of British Columbia, Canada. Its registered address is Suite 428, 755 Burrard Street, Vancouver, BC, V6Z 1X6, Canada.

The Company focuses on investment in disruptive and scalable technology in the mineral extraction industry and in parallel acquiring assets to which the technology could be applied.

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for a period of at least twelve (12) months from June 30, 2023.

The Company has experienced recurring operating losses and has an accumulated deficit of \$89,939 as at June 30, 2023 (December 31, 2022: (\$99,793)). For the six months ended June 30, 2023, the Company used cash in operating activities totalling \$1,967 (June 30, 2022: (\$610)). The Company had cash and cash equivalents of \$281 (December 31, 2022: \$239) and a working capital (current assets less current liabilities) deficit of \$779 as at June 30, 2023 (December 31, 2022: (\$1,155)). As at June 30, 2023, current liabilities included \$750 in accrued salaries to the CEO, CFO, and Chairman, which will only be repaid following a successful fundraise by the Company.

The Company’s continued operation is dependent upon its ability to raise additional funding. Although the directors believe that the Company should be able to secure future fundraising as required, there are no assurances that the Company will be successful in achieving this goal. As a result, there are material uncertainties that may cast significant doubt about the Company’s ability to continue as a going concern. These condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes the Company will realize on its assets and discharge its liabilities in the normal course of operations, and do not include adjustments to the amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue as a going concern. These adjustments could be material.

### **2 Basis of Presentation**

#### **(a) Statement of Compliance with International Financial Reporting Standards**

These condensed consolidated interim financial statements (the “interim financial statements”), which are presented in Canadian dollars, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board applicable to the preparation of interim financial statements, including International Accounting Standards (“IAS”) 34, “Interim Financial Reporting”. They do not include all information required for a complete set of IFRS financial statements. However, selected notes are included to explain events and transactions that are significant to

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

an understanding of the changes and performance since the Company's last annual financial statements as at and for the year ended December 31, 2022.

### **(b) Basis of Consolidation**

The interim financial statements include the accounts for the Company and its wholly owned subsidiaries, CoTec USA Corp. and 1391621 B.C. Ltd which were incorporated to house the investment in MagIron. All intercompany balances and transactions have been eliminated upon consolidation.

These condensed consolidated interim financial statements are presented in Canadian dollars which is also the parent company's functional currency. The functional currency for each entity consolidated with the Company is determined by the currency of the primary economic environment in which it operates.

The US and Canadian subsidiaries' functional currency is the Canadian dollar.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognized in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the average exchange rates for the period.

### **(c) Accounting Policies**

The accounting policies, estimates and judgements, methods of computation and presentation followed in these interim financial statements are the same as those applied in the Company's annual financial statements for the year ended December 31, 2022. Accordingly, these interim financial statements should be read in conjunction with the Company's most recent annual financial statements.

### **(d) Approval of Financial Statements**

The Board of Directors approved these consolidated financial statements for issue on August 11, 2023.

## **3 Critical Accounting Estimates and Judgements**

The preparation of these interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the year. Actual results could differ from these estimates.

In preparing the interim condensed consolidated financial statements, the significant judgments made by management in applying the Company's accounting policies and key sources of estimation uncertainty were

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

the same as those applied to the annual audited consolidated financial statements for the year ended December 31, 2022.

### **4 Share Capital**

#### *Equity*

The Company has unlimited authorized common shares with no par value. Total common shares issued and outstanding as at June 30, 2023, numbered 54,627,430.

#### *Private Placement*

On January 10, 2023, the Company completed a second tranche of a non-brokered private placement that was announced on December 20, 2022 (“December Private Placement”). Pursuant to this closing, the Company issued a total of 2,651,000 Units at a price of \$0.50 per subscription receipt for gross proceeds of \$1,326. Each Unit consists of one common share in the capital of the Company, and one Common Share purchase warrant (“Warrant”). Each Warrant entitles the holder to purchase one Common Share at an exercise price of \$0.75 for a period of 12 months following the issuance of the Units.

On February 2, 2023, the Company completed a third tranche of a non-brokered private placement that was announced on December 20, 2022 (“December Private Placement”). Pursuant to this closing, the Company issued a total of 5,069,796 Units at a price of \$0.50 per subscription receipt for gross proceeds of \$2,535. Each Unit consists of one common share in the capital of the Company, and one Common Share purchase warrant (“Warrant”). Each Warrant entitles the holder to purchase one Common Share at an exercise price of \$0.75 for a period of 12 months following the issuance of the Units.

On March 1, 2023, the Company announced a non-brokered private placement of up to 7,150,00 Units (“March Private Placement”). On March 9, 2023, the Company closed the March Private Placement, and issued a total of 7,153,210 Units at a price of \$0.50 per subscription receipt for gross proceeds of \$3,577. Each Unit consists of one common share in the capital of the Company, and one Common Share purchase warrant (“Warrant”). Each Warrant entitles the holder to purchase one Common Share at an exercise price of \$0.75 for a period of 12 months following the issuance of the Units.

When the placements are combined, the Corporation issued an aggregate of 14,874,006 Units pursuant to the private placements for gross proceeds of \$7,437.

Using the relative fair value method, \$1,511 was allocated to Contributed Surplus for the Warrants and \$5,926 was allocated to share capital.

#### *Stock Options*

Share-based compensation expenses recognized in the Consolidated Statement of Income and Comprehensive Income for the six months ended June 30, 2023, and 2022, is as follows:

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

	<b>June 30, 2023</b>	<b>June 30, 2022</b>
Stock options	(214)	(133)
Equity incentive units	(212)	19
Deferred share units	(73)	-
<b>Total</b>	<b>(499)</b>	<b>(114)</b>

The Company’s omnibus equity incentive plan (the “Plan”) was approved by the Company’s shareholders at its annual general and special meeting held October 27, 2022.

Under the Plan, the Board of Directors may grant options to directors, officers, employees or consultants with the number of outstanding options at any time limited to a maximum of 10% of the number of issued and outstanding common shares. The vesting periods for individual awards of options are determined at the discretion of the Corporate Governance, Compensation and Nominating Committee.

In connection with the December and March Private Placements, and pursuant to existing agreements with the CEO (refer to Note 7 Related Party Transactions) additional stock options and equity incentive units (“EIUs”) were issued. In total, 1,631,906 stock options were granted to the CEO, other officers, management and employees of the Company in the quarter, at an exercise price equal to \$0.50 per share. The options are valid for 10 years and will vest 1/3 annually over a 3-year period.

The weighted average fair value per option granted during the six months ended June 30, 2023, was \$0.35 (June 30, 2022: \$0.43). As at June 30, 2023, there was \$813 of share-based compensation expense (June 30, 2022: \$423) relating to the Company’s unvested stock options to be recognized in future periods.

For the six months ended June 30, 2023, stock-based compensation expense relating to the vesting of stock options, was \$214. A summary of option activity under the Plan during the six months ended June 30, 2023, and December 31, 2022, is as follows:

	<b>Number of options #</b>	<b>Weighted average exercise price \$</b>
<b>Balance – December 31, 2022</b>	2,455,077	0.41

		<b>3,986,983</b>	<b>0.45</b>	<b>9.04</b>	<b>717,686</b>

### Warrants

Pursuant to the December Private Placement, the Company issued 7,720,796 warrants. Each warrant entitles the holder to acquire one common share in the Company at a price of \$0.75 per share, for a period of twelve months following the date of issuance. The fair value of the warrants was determined as \$277 for the second tranche, and \$521 for the third tranche. The fair value of the warrants for the second tranche was calculated using the Black-Scholes options pricing model based on a risk-free annual interest rate of 3.95%, an expected life of 1 year, and expected volatility of approximately 91% based on historical volatility, and a dividend yield of nil. The fair value of the warrants for the third tranche was calculated using the Black-Scholes options pricing model based on a risk-free annual interest rate of 3.79%, an expected life of 1 year, and expected volatility of approximately 93% based on historical volatility, and a dividend yield of nil.

Pursuant to the March Private Placement, the Company issued 7,153,210 warrants. Each warrant entitles the holder to acquire one common share in the Company at a price of \$0.75 per share, for a period of twelve months following the date of issuance. The fair value of the warrants was determined as \$1,114. The fair value of the warrants was calculated using the Black-Scholes options pricing model based on a risk-free annual interest rate of 4.12%, an expected life of 1 year, and expected volatility of approximately 95% based on historical volatility, and a dividend yield of nil.

Using the relative fair value method, \$1,511 was recognized in contributed surplus for all the warrants.

A summary of warrant activity during the six months ended June 30, 2023, and December 31, 2022, is as follows:

### MagIron LLC (“MagIron”)

The Company entered into an exclusivity agreement with US based MagIron LLC (“MagIron”) on January 27, 2022 (“Exclusivity Agreement”). Under the Exclusivity Agreement, CoTec received the exclusive right to negotiate a potential investment in MagIron for a specified period ending on March 31, 2022, subject to

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

an exclusivity payment of USD120,000 (“Exclusivity Payment”). CoTec paid the Exclusivity Payment on January 28, 2022, at an exchange rate of 1.2842, resulting in \$154 being capitalized to the balance sheet.

On May 15, 2022, CoTec entered into an agreement to acquire a 15.8% equity interest in MagIron LLC (“MagIron”) for USD2.12 million, comprising USD2 million cash contribution (\$2.6 million) and the Exclusivity Payment. The transaction completed on May 16, 2022. MagIron is a U.S. based private company that acquired an iron ore project that it intends to refurbish and bring back into production. The investment includes terms customary for an investment of this nature, including Board representation subject to CoTec maintaining a 10% equity interest.

MagIron announced on June 24, 2022, that it had completed a private placement of a USD5 million secured convertible note on June 15, 2022. The convertible note has the right to convert into shares of MagIron for a period of 18 months at a conversion price that reflects a pre-money valuation of USD30 million, which represents a 126% increase in the Company’s initial investment which was at a post-money valuation of USD13.3 million. Given the uncertainties around several project milestones which in turn affect the probability of conversion to equity for the convertible note, CoTec opted to discount this gain by the interest rate agreed between MagIron and the arm’s length third party for the convertible note, which is the 12-month LIBOR rate as at March 31, 2023 of 5.3%, plus 5%, or 10.3%, over the 9-month remaining period. Furthermore, CoTec has applied an overall success factor of 70% to this gain, to reflect management’s expectation of the project being successful as well as the likelihood of a liquidity event. Discounting the gain and applying the success factor yields an overall gain of 81.7%. This valuation method was used for the year ending December 31, 2022, and quarter ending March 31, 2023. This gain and any related changes in foreign exchange have been recorded through the statement of income as FVTPL in the amount of \$56. For the three months ended March 31, 2023, the change in fair value due to the reduction of discount period as well as increased LIBOR rate was \$60 gain, and changes due to FX resulted in a loss of \$4. This valuation methodology is no longer used for the period ended June 30, 2023 as there were several subsequent equity fundraises at equal-to, or higher valuations.

On February 2, 2023, the Company invested an additional USD200,000, or \$268 for 301,932 common shares and 301,932 warrants of MagIron which increased its interest to 16.3% on an undiluted basis. Each warrant entitles the Company to acquire one common share in MagIron at a price of \$0.66 per share, for a period of twenty-four months following the date of issuance, or January 31, 2025.

On April 26, 2023, the Company invested an additional USD101,014 or \$138 for 92,878 common shares and 92,878 warrants of MagIron which increased its interest to 16.4% on an undiluted basis. Each warrant entitles the Company to acquire one common share in MagIron at a price of \$1.09 per share, for a period of twenty-four months following the date of issuance, or April 25, 2025.

On June 16, 2023, the Company invested an additional USD120,225 or \$159 for 26,383 common shares and 26,383 warrants of MagIron which increased its interest to 16.4% on an undiluted basis. Each warrant entitles the Company to acquire one common share in MagIron at a price of \$4.56 per share, for a period of twenty-four months following the date of issuance, or June 14, 2025. This fundraise of USD500,000 that

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

was supported by existing shareholders was completed at a pre-money valuation of USD150 million. This pre-money valuation was determined by MagIron management based on a number of factors which includes a discounted cash flow model of the business, de-risking of the project, and positive flowsheet results from the Natural Resources Research Institute (“NRRI”). The transaction was deemed to represent the imputed fair value of CoTec’s investment in MagIron.

Management applies the price of recent investment valuation technique where it uses the initial cost of the investment or, where there has been subsequent investment, the price at which a significant amount of new investment into the investee was made, to estimate the enterprise value.

The most recent valuation of USD150 million represents an increase in the Company’s initial investment which considered a post-money valuation of USD13.3 million. Management also considered the uncertainties around the project milestones, and has applied an overall success factor of 50% to this gain, to reflect management’s expectation of the project being successful as well as the likelihood of a liquidity event. This gain and any related changes in foreign exchange have been recorded through the statement of income as FVTPL in the amount of \$10,966. For the three months ended June 30, 2023, the change in fair value due to the recent fundraise pre-money valuation was \$11,029 gain and changes due to FX resulted in a loss of \$119. No changes or events subsequent to the relevant transaction that would imply a change in the investment’s fair value were identified.

Further, for the six months ended June 30, 2023, the change in fair value of the warrant investments due to the recent fundraise pre-money valuation was a \$695 gain. No changes or events subsequent to the relevant transaction that would imply a change in the investment’s fair value were identified.

*Binding Solutions Limited (“BSL”)*

BSL is a UK based private company governed by the laws of England and Wales that has developed a proprietary cold agglomeration technology for the production of high-quality clean pellets from primary materials, waste dumps, and stockpiles.

Pursuant to the terms of a subscription agreement between the Company and BSL dated December 10, 2021, as amended (the “BSL Subscription Agreement”), the Company agreed to subscribe for a minimum of USD3.0 million and a maximum of USD4.0 million, to be funded in two tranches as follows:

- an initial investment of USD2.0 million; and
- a subsequent investment of between USD1.0 million and USD2.0 million, with the amount determined by the Company, to be completed within six months of the date of the initial investment (or such later date as BSL and the Company may agree). On February 28, 2023, the Company and BSL agreed that the Company could invest a further USD1.5 million at a 20% discount to any subsequent fundraise up to June 30, 2023.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

On April 13, 2022, the Company completed its initial investment of USD2 million, at USD731.50 per share, for approximately 2% of the outstanding shares of BSL.

On February 28, 2023, the Company completed its subsequent investment in BSL in the amount of USD500,000 at USD881.00 per share, which brings total ownership to approximately 3% of the outstanding shares of BSL.

In addition, on April 11, 2022, the Company and BSL entered into an investment agreement (“Investment Agreement”) pursuant to which the Company received the exclusive right to apply BSL’s pelletization technology to ferroalloy and slag waste projects in Canada, Germany, Austria and the Netherlands for a period of 36 months from the date of the Investment Agreement. Such application would be via one or more joint venture entities that would initially be owned 50/50 by CoTec and BSL and on terms and conditions set out in the Investment Agreement. This exclusive right has since been extended to 48 months, with the option to extend by a further 48 months by written notice from the Company to BSL in respect of any designated jurisdiction in which a JV company has been established pursuant to the terms of the agreement dated February 27, 2023 and at least one historical waste dump has been acquired by the JV company or a waste project has been developed in the initial 48 months, or such other date as the parties may agree in writing.

Subsequent to the Company’s initial equity investment in 2022 into BSL, BSL had received an equity investment from an Asian based corporate group at a valuation of USD130 million on a fully diluted basis, or USD1,101.25 per share. This valuation represents a 51% increase over the \$70 million valuation which the Company has agreed for its initial USD2 million in BSL. This gain and any related changes in foreign exchange have been recorded through the statement of income as FVTPL in the amount of \$1.549 million for the year ended December 31, 2022.

Given the Company’s prior agreement with BSL to invest at a 20% discount to any recent fundraise, and in connection with BSL’s subsequent investment from an Asian based corporate group, the Company has recorded a fair value gain on its additional investment made on February 28, 2023, of USD500,000 in the amount of \$26 including changes in FX for the six months ended June 30, 2023. No changes or events subsequent to the relevant transaction that would imply a change in the investment’s fair value were identified.

*Maginito Limited (“Maginito”)*

On March 16, 2023, the Company completed a GBP1.5 million equity investment into Maginito, or \$2,496 for 10% of Maginito’s equity at a GBP15 million post-money valuation. The Company also has an option to increase its equity interest in Maginito to 20.6% through the conversion of its Mkango Convertible Loan into Maginito common shares (see Note 6 Notes Receivable). Maginito was established by Mkango Resources Limited (“Mkango”) (Note 6), which holds a 90% interest in Maginito, to pursue downstream green technology opportunities in the rare earths supply chain, encompassing NdFeB magnet recycling and

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

innovative rare earth alloy, magnet and separation technologies, underpinned by access to sustainably sourced primary and secondary rare earth raw materials.

In connection with the investment, Maginito and CoTec agreed to collaborate on the commercialization of downstream rare earth technologies in the United States and Mkango Rare Earths UK Ltd was transferred to become a subsidiary of Maginito. Maginito and CoTec are evaluating development of recycling, chemical processing, alloy and magnet manufacturing in the United States, with scoping studies and site selection underway in advance of detailed feasibility studies, and ongoing discussions with potential customers and recycling partners.

Maginito holds a 42% interest in UK rare earth neodymium (NdFeB) magnet recycler, HyProMag Limited (“HyProMag”). Hypromag has licensed the patented technology called HPMS (Hydrogen Processing of Magnet Scrap) developed in the Magnetic Materials Group (MMG) at the University of Birmingham.

For the six months ended June 30, 2023, \$27 gain due to changes in FX was recorded through FVTPL with no changes to the equity value. No changes or events subsequent to the relevant transaction that would imply a change in the investment’s fair value were identified.

### *Ceibo Investment (“Ceibo”)*

On May 9, 2023, the Company completed a USD1.5 million equity investment into Ceibo Inc., or \$2,007 for a 3% equity interest undiluted. Ceibo, a Delaware private corporation, through its wholly-owned Chilean subsidiary has developed a revolutionary process to leach low-grade primary copper sulphides, such as chalcopyrite, and copper waste material using a proprietary high throughput inorganic leaching technology.

For the six months ended June 30, 2023, there was a \$21 loss due to changes in FX recorded through FVTPL with no changes to the equity value. No changes or events subsequent to the relevant transaction that would imply a change in the investment’s fair value were identified.

## **6 Notes Receivable**

On June 19, 2022 the Company entered into a convertible loan agreement with Mkango, for an amount of U.K Pound Sterling (“GBP”) GBP500,000 or \$781 (“Mkango Loan 1”). Mkango is a public company that trades on the TSX-V under MKA, and on the LSE under MKA.L. Mkango’s principal business is rare earth element and associated minerals exploration and development. The loan carries an interest rate of 5% per annum compounded annually, and the full amount of the principal and interest is due and payable on June 30, 2024. At any time prior to the maturity date, the Company has the right to convert all or any part of the principal sum and accrued interest (“Mkango Conversion Amount”) into Mkango common shares (“Mkango Conversion Shares”). The conversion price in respect of the Mkango Loan is GBP0.27 per Mkango common share (“Mkango Principal Conversion Price”). The conversion price in respect of the accrued interest, is the higher of the Mkango Principal Conversion Price, and the closing price of Mkango shares on the TSX-V on the date immediately preceding the date of the conversion notice.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

On September 6, 2022, the Company entered into a second convertible loan agreement with Mkango, for an amount of GBP500,000 or \$766 (“Mkango Loan 2”). The loan carries the same terms and conditions as the Mkango Loan 1.

On October 27, 2022, the Company entered in a third convertible loan agreement with Mkango, for an amount of GBP222,500, or \$354 (“Mkango Loan 3”). The loan carries the same terms and conditions as the Mkango Loan 1 and 2.

On December 28, 2022, the Company entered into a fourth convertible loan agreement with Mkango, for an amount of GBP325,000, or \$537 (“Mkango Loan 4”). The loan carries the same terms and conditions as the Mkango Loan 1, 2, and 3 (together with Mkango Loan 4, “Mkango Loans”).

On February 1, 2023, the Company completed the remaining investment into Mkango by investing GBP452,500 to complete the GBP2 million convertible loan into Mkango (“Mkango Convertible Loan”). The Mkango Loans 1, 2, 3, and 4 were immediately retired upon the final payment and contributed towards the GBP2 million convertible loan less any applicable interest earned to-date. The Mkango Convertible Loan is a 2-year convertible loan, bearing 5% interest compounded annually, and is secured over the shares held by Mkango in Maginito and the terms supersede all previous convertible notes issued by Mkango to the Company.

The Convertible Loan is convertible (both principal and interest) by the Company (“Mkango Conversion Right”) at any time prior to the maturity date of the Mkango Convertible Loan, which is 60 days following the earliest of:

1. two years following the date of the Mkango Convertible Loan being February 1, 2023, or February 1, 2025;
2. the execution of definitive documentation providing for the financing, in whole or substantial part, of the development of the Songwe Hill Rare Earths Project (“Songwe Hill”) in Malawi which has not yet occurred as of June 30, 2023;
3. the sale of all or any material portion of Songwe Hill;
4. the execution of any agreement with a party pursuant to which such party is entitled to acquire greater than 50% of Songwe Hill; or
5. the date on which any party acquires greater than 50% of the shares of Mkango (the "Longstop Date").

The principal amount of GBP2 million (the "Principal Amount") may be converted at GBP0.27 per Mkango share with interest to be converted at the higher of GBP0.27 per Mkango Share and the price of the Mkango Shares at the time of conversion. The conversion price is subject to customary anti-dilution adjustments.

On May 17, 2023, CoTec has notified Mkango and Maginito of its intention to convert the Principal Amount and interest into Maginito Shares giving it an effective interest, post conversion, of 20.6% of Maginito ("CoTec Maginito Conversion Right").

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

If the Convertible Loan is not converted prior to the Longstop Date, the Company will be required to repay the loan within 60 days following the Longstop Date.

The option for the conversion into common shares in the agreement causes the instrument to fail the Solely Payments of the Principal and Interest (SPPI) criterion, as the contractual terms are not only payments of principal and interest on the principal amounts outstanding, it also reflects the value of the issuer's equity. Therefore, the convertible note, as a whole, is classified as FVTPL. Subsequent to initial recognition, the convertible loan receivable is revalued with the changes in fair value recorded in profit or loss.

Given that the Mkango Loans' principal were credited towards the Mkango Convertible Loan of GBP2 million, mark-to-mark gains and losses for the fair value of the convertible note and any applicable movements in foreign exchange have been recorded upon retiring the Mkango Loans for the six months ended June 30, 2023 as follows:

- The Mkango Loan 1 had a fair value revaluation gain of \$105 and accrued interest of \$23.
- The Mkango Loan 2 had a fair value revaluation loss of \$16 and accrued interest of \$16.
- The Mkango Loan 3 had a fair value revaluation loss of \$21 and accrued interest of \$5.
- The Mkango Loan 4 had a fair value revaluation loss of \$15 and accrued interest of \$3.

For the six months ended June 30, 2023, the Mkango Convertible Loan had a fair value loss of \$83, which is due to movements in foreign exchange. Interest accrued was \$68.

On November 22, 2022, the Company entered into a \$300 bridge loan ("Bridge Loan") to International Zeolite Corp. ("IZ"). The Bridge Loan is secured by a first ranking charge in favour of CoTec over all of IZ's assets. IZ is a public company that engages in the exploration, development, production and distribution of the natural industrial mineral zeolite, and trades on the TSX-V under IZ. The Bridge Loan bears interest at 7% per annum and is repayable on the earlier of November 21, 2024, or change of control of IZ. For the six months ended June 30, 2023, the Bridge Loan has accrued interest of \$10.

## **7 Related Party Transactions**

### *Compensation of Key Management*

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing, and controlling the activities of the Company, directly or indirectly. The Company has identified the Chief Executive Officer, Chief Financial Officer, Chief Operating Officer and Board Chairman as its key management personnel. The remuneration of key management is determined by the compensation committee of the Board of Directors. The consulting fees and other compensation of key management personnel were as follows for the six months ended June 30, 2023, and 2022:

*Other Related Party Transactions*

On June 29, 2022, the Company entered into an unsecured loan agreement with Kings Chapel International Ltd. (“Kings Chapel”) for an amount of GBP500,000 or \$781 (“Kings Chapel Loan 1”). The purpose of the Kings Chapel Loan 1 was to fund the Mkango Loan. Kings Chapel is associated with the Company’s CEO, Julian Treger. The Kings Chapel Loan bears interest of 5% per year compounded annually and shall be due and payable on the maturity date, June 29, 2024. 50% of the loan principal was repaid on January 11, 2023, and the remaining 50% was repaid on February 2, 2023. GBP14,110 in accrued interest remains outstanding as of June 30, 2023.

On September 6, 2022, the Company entered into a second unsecured loan agreement with Kings Chapel for an amount of GBP250,000 or \$378 (“Kings Chapel Loan 2”). The purpose of the Kings Chapel Loan 2 was to partly fund Mkango Loan 2. The Kings Chapel Loan 2 carries the same terms as the Kings Chapel Loan 1 (“Kings Chapel Loans”). 50% of the loan principal was repaid on January 11, 2023, and the remaining 50% was repaid on February 2, 2023. GBP4,692 in accrued interest remains outstanding as of June 30, 2023.

On November 23, 2022, the Company entered into a third unsecured loan agreement with Kings Chapel for an amount of \$300 (“Kings Chapel Loan 3”). The purpose of the Kings Chapel Loan 3 was to fund the IZ Bridge Loan. The Kings Chapel Loan 3 carries the same terms as the Kings Chapel Loan 1 and 2 (“Kings Chapel Loans”). 100% of the loan principal was repaid on February 1, 2023, and \$4 in accrued interest remains outstanding as of June 30, 2023.

On February 28, 2023, the Company entered into a fourth unsecured loan agreement with Kings Chapel for an amount of \$475 (“Kings Chapel Loan 4”). The purpose of the Kings Chapel Loan 4 was to fund the MagIron additional investment. The Kings Chapel Loan 4 carries the same terms as the Kings Chapel Loan 1, 2, and 3. For the three months ended June 30, 2023, \$8 was incurred for accrued interest.

On May 3, 2023, the Company entered into a fifth unsecured loan agreement with Kings Chapel for an amount of USD1,500,000 or \$2,026 (“Kings Chapel Loan 5”). The purpose of the Kings Chapel Loan 5 was to fund the Ceibo investment. The Kings Chapel Loan 5 carries the same terms as the Kings Chapel Loan 1, 2, 3, and 4. For the six months ended June 30, 2023, \$31 was incurred for accrued interest.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

On June 15, 2023, the Company entered into a sixth unsecured loan agreement with Kings Chapel for an amount of USD120,000 or \$159 (“Kings Chapel Loan 6”). The purpose of the Kings Chapel Loan 6 was to fund the additional investment in MagIron. The Kings Chapel Loan 6 carries the same terms as the Kings Chapel Loan 1, 2, 3, 4, and 5. For the six months ended June 30, 2023, \$1 was incurred for accrued interest.

On August 11, 2021, 2,305,831 EIUs were granted to the CEO of the Company. Each EIU is equivalent in value to one common share of the Company, and will vest on the earlier of i) August 30, 2024, provided that the 30-day volume weighted average trading price (“VWAP”) of the common shares as of that date on the principal stock exchange on which they are then traded is at least \$0.50 per share (adjusted as required to give effect to any stock splits, consolidations or other reorganizations of the common shares after the date hereof), and ii) the date on which the Company completes a change of control (the “Vesting Date”), provided in either case that the Director becomes engaged with the Company as Executive Chair or CEO and remain so engaged as of the Vesting Date. If the EIUs vest in accordance with the aforementioned conditions, then no later than 10 days after the Vesting Date, the Company will deliver in respect of every Unit, at its discretion, either i) one common share or ii) a cash payment equal to the VWAP of the common shares on the primary stock exchange for the five trading days immediately preceding the Vesting Date. Given the current cash position of the Company, it is more likely at this stage that these EIUs will be settled with common shares and as such have been recorded as Equity-settled Share-Based Compensation. In order to measure the fair value of the EIUs awarded on August 11, 2021, management used Monte Carlo simulation to determine the expected value based on the ending share prices as at the Vesting Date. The fair value of the EIU as at the grant date of \$153. The expense will be recognized during the vesting period. For the six months ended June 30, 2023, an expense in the amount of \$12 has been recognized.

During April 2022, EIUs in the amount of 7% of the new common shares issued, or 797,342 EIUs, for the private placement in connection with the transition to the TSX-V, have been awarded to the CEO on the date the Company listed on the TSX-V. The agreement for the EIUs in the amount of 7% of the new common shares issued stipulate the same vesting conditions and settlement via cash payment as the EIUs awarded on August 11, 2021, however settlement via Common Shares will not be issued from Treasury but rather would be purchased by or on behalf of the Company over the facilities of the primary stock exchange on which the Common Shares are listed. Thus, these EIUs will be treated as a liability-classified award, with any changes in fair value to be reflected as share-based compensation expense. Furthermore, if at any time during the period from the day the Company is listed on the TSX-V until March 31, 2023, the Company issues additional common shares (or securities convertible into, or exchangeable for, common shares) pursuant to any financing transactions or as consideration for the acquisition of any assets or businesses, the Company will further award to the CEO on each closing date of such transactions, additional EIUs equal to 7% of common shares issued or issuable pursuant to such financing transaction or acquisition.

Following the listing of the Company on the TSX-V during April 2022, the Company issued the Chairman EIUs equal to 1.75% of the number of Common Shares issued, or 199,335 EIUs, pursuant to the Financing. The EIUs will vest and be settled on the earlier of (i) September 30, 2024, provided that the 30-day volume weighted average trading price of the Common Shares as of that date on the principal stock exchange on

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

which they are then traded is at least \$0.50 and (ii) the date on which the Company completes a change of control transaction, provided in either case that the Chairman continues to be a member of the Board as of the vesting date. Subject to vesting, the Company will, no later than 10 days after the vesting date in respect of every Unit, deliver to the Chairman, in its discretion, either (i) one Common Share (which will not be issued from treasury but rather would be purchased by or on behalf of the Company over the facilities of the primary stock exchange on which the Common Shares are listed) or (ii) a cash payment equal to the volume weighted average closing price of the Common Shares on the primary stock exchange on which the Common Shares are then listed for the five trading days immediately preceding the vesting date or, if the Common Shares are not listed and posted for trading on any stock exchange, the fair market value of the Common Shares as determined by the board of directors of the Company in its sole discretion. These EIUs will be treated as a liability-classified award, with any changes in fair value to be reflected as share-based compensation expense.

The fair value of the 996,677 EIUs awarded to the CEO and Chairman during April 2022 was determined as \$398 as at June 30, 2023. The fair value of the EIUs was calculated using Monte Carlo simulation with an expected volatility of approximately 86% based on historical volatility. This was determined by using Monte Carlo simulation to estimate the expected value by averaging the ending stock prices as at the Vesting Date over 10,000 simulations as at June 30, 2023. For the six months ended June 30, 2023, \$87 was added to the non-current liability and recorded as share-based compensation expense for the vesting of these EIUs and any changes in fair value.

The Company granted the CEO options in the amount of 569,530 on the date on which the Company listed on the TSX-V so that, as of that date, he held options to purchase a total number of Common Shares equal to 5% of the Company's issued and outstanding Common Shares. The options have an exercise price of \$0.55, being the closing price of the trading day following the date on which the shares were re-listed on the TSX-V, a term of 10 years and will be subject to vesting over three years, using a graded vesting approach applied for accounting purposes with 1/3 of each option grant vesting each year subject to their continued employment with or engagement by the Company.

In connection with the warrants exercised in September 2022, 202,020 stock options have been granted to the CEO of the Company pursuant to the Company's 10% rolling stock option plan so that, as of that date, he held options to purchase a total number of Common Shares equal to 5% of the Company's issued and outstanding Common Shares. The options have an effective grant date of September 7, 2022 and are exercisable for a period of 10 years at a price of \$0.46 per common share, with 1/3 of the options vesting every 12 months, over a 3-year period.

In connection with the December Private Placement and March Private Placement, 806,905 stock options have been granted to the CEO of the Company on April 24, 2023 pursuant to the Company's 10% rolling stock option plan so that, as of that date, he held options to purchase a total number of Common Shares equal to 5% of the Company's issued and outstanding Common Shares. The options are exercisable for a period of 10 years, at a share price of \$0.55 per common share, with 1/3 of the options vesting every 12 months, over a 3-year period. \$37 was recorded as an expense during the six months ended June 30, 2023.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

In connection with the warrants exercised in September 2022, 282,828 EIUs have been awarded to the CEO of the Company so, as of that date, they held EIUs equal to 7% of the number of Common Shares issued. The fair value of the EIUs was calculated using Monte Carlo simulation. The fair value of the 282,828 EIUs awarded to the CEO was determined to be \$99 as at September 7, 2022 using an expected volatility of approximately 113% based on historical volatility over 10,000 simulations. As at June 30, 2023, the fair value of the EIUs was calculated using Monte Carlo simulation using an expected volatility of approximately 86% based on historical volatility to estimate the expected value by averaging the ending stock prices as at the Vesting Date over 10,000 simulations. For the six months ended June 30, 2023, \$23 was added to the non-current liability and recorded as share-based compensation expense for the vesting of these EIUs and any changes in fair value.

In connection with the December Private Placement and March Private Placement, 1,129,668 EIUs were awarded to the CEO of the Company. The fair value of the 1,129,668 EIUs awarded to the CEO was determined to be \$451 as at June 30, 2023 using an expected volatility of approximately 86% based on historical volatility over 10,000 simulations. For the six months ended June 30, 2023, \$78 was added to the non-current liability and recorded as an estimated share-based compensation expense for the vesting of these EIUs and any changes in fair value.

The Company granted the Chairman options in the amount of 142,382 on the date on which the Company was listed on the TSX-V so that, as of that date, he held options to purchase a total number of Common Shares equal to 1.25% of the Company's issued and outstanding Common Shares. The options have an exercise price of \$0.55, being the closing price of the trading day following the date on which the shares were re-listed on the TSX-V, a term of 10 years and will be subject to vesting over three years, using a graded vesting approach applied for accounting purposes with 1/3 of each option grant vesting each year subject to their continued employment with or engagement by the Company.

For the three months ended June 30, 2023, \$96 was recorded as share-based compensation expense for the vesting of these stock options.

On April 24, 2023, the Company granted an aggregate 490,000 deferred share units ("DSUs") to the non-executive Directors of the Company. Each DSU granted shall vest on April 24, 2024, provided that the participant continues to qualify as a participant for the purposes of the Plan as of that date, and be settled, subject to and in accordance with Section 9.1 of the Plan. \$51 was recorded as an expense during the six months ended June 30, 2023.

On April 24, 2023, the Company granted an aggregate of 825,000 stock options to the COO, CFO, and other management of the Company pursuant to the Company's 10% rolling stock option plan. The options are exercisable for a period of 10 years, at a share price of \$0.55 per common share, with 1/3 of the options vesting every 12 months, over a 3-year period. \$38 was recorded as an expense during the six months ended June 30, 2023.

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

On April 14, 2022, the Company awarded the CEO a cash bonus of \$200 subject to the Company being listed on the TSX-V. An accrual of \$200 related to the aforementioned bonus is included in accrued liabilities as at June 30, 2023.

On April 14, 2022, the Company awarded the Chairman a cash bonus of \$50 subject to the Company being listed on the TSX-V. An accrual of \$50 related to the aforementioned bonus is included in accrued liabilities as at June 30, 2023.

### 8 Fair Value Measurements of Financial Instruments

The categories of fair value hierarchy that reflect the significance of inputs used in making fair value measurements are as follows:

Level 1 – quoted in active markets for identical assets or liabilities.

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data.

The levels in the fair value hierarchy into which our financial assets and liabilities that are measured and recognized in the consolidated statements of financial position at fair value on a recurring basis were categorized as follows:

<b>Fair value at June 30, 2023</b>				
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3<sup>(1)</sup></b>	<b>Total</b>
Equity securities	-	-	24,693	24,693
Convertible notes receivable	-	3,432	-	3,432
<b>Balance, end of period</b>	<b>-</b>	<b>3,432</b>	<b>24,693</b>	<b>28,125</b>

- (1) Equity securities of MagIron are included in Level 3 as the basis of valuation do not have regular market pricing, but whose fair value can be determined based on a combination of evidence from an external arm's length transaction associated with the investee's equity, as well as certain assumptions used in the calculation of the fair value are not based on observable market data. Equity securities of BSL are included in Level 3 as the basis of valuation do not have a regular market pricing, but whose fair value can be determined based on evidence from external transactions in the investee's equity. Equity securities of Maginito are included in Level 3 as the basis of valuation do not have a regular market pricing, but whose fair value can be determined based on evidence from external transactions in the investee's equity.

The carrying values of cash, receivables, and accounts payable approximates fair value due to the short-term nature of the financial instruments. During the six months ended June 30, 2023, no amounts were transferred between Levels.

*Sensitivity Analysis for Recurring Fair Value Measurements Categorized within Level 3*

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)

Sensitivity analysis of financial instruments is performed to measure favourable and unfavourable changes in fair value of financial instruments which are affected by the unobservable parameters, by varying input parameters to showcase step-changes in fair value. When the fair value is affected by more than two input parameters, the amounts represent the most favourable or unfavourable.

The results of the sensitivity analysis for effect on profit or loss (before tax) from changes in inputs for the major financial instruments which are categorized within Level 3 and subject to sensitivity analysis are as follows:

	Favourable changes (\$)		Unfavourable changes (\$)	
	Profit or loss	Equity	Profit or loss	Equity
Financial assets at FVTPL	3,355	3,355	(3,355)	(3,355)

For equity investments, changes in their fair value are calculated by considering changes in equity revaluation (10% increase/decrease), and changes in the MagIron success factor (10% increase/decrease).

## 9 Income Per Share

The calculations of basic and diluted income per share are based on the following:

	For the three months ended		For the six months ended	
	Jun. 30, 2023	Jun. 30, 2022	Jun. 30, 2023	Jun. 30, 2023
<b>Net Income attributable to equity holders of CoTec</b>	<b>\$ 10,376</b>	<b>\$ 2,262</b>	<b>\$ 9,854</b>	<b>\$ 1,911</b>
Weighted average number of common shares issued	54,627	32,822	50,869	27,967
Adjustments for dilutive instruments:				
Stock options	493	544	493	544
Warrants	-	2,783	-	2,783
Diluted weighted average number of shares outstanding	55,120	36,148	51,362	31,293
Basic net income per share	<b>\$0.19</b>	\$0.07	<b>\$0.19</b>	\$0.07
Diluted net income per share	<b>\$0.19</b>	\$0.06	<b>\$0.19</b>	\$0.06

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

### 10 Commitments

#### *Commitment to Database of Registered Financial Professionals Firm*

On June 12, 2023, the Company entered a six (6) month commitment to a firm for services of a database of registered financial professionals in North America, Hybrid Financial Ltd. (“Hybrid”). The total commitment is \$90, incurring \$15 per month in services from July to December 2023.

### 11 Risk Management

The Company is exposed to various financial instrument risks and assesses the impact and likelihood of this exposure. These risks include credit risk, currency risk, and liquidity risk. Where material, these risks are reviewed and monitored by the Board of Directors.

#### *Credit Risk*

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company’s credit risk is primarily attributable to its liquid financial assets including cash and receivables and the Company’s investments in convertible notes. The Company limits its exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality financial institutions as determined by credit rating agencies. Receivables mainly consist of interest receivable from its cashable guaranteed investment certificate (“GIC”).

#### *Currency risk*

The Company’s operations are in Canada, the United States, and the United Kingdom. The international nature of the Company’s operations results in foreign exchange risk as transactions are denominated in foreign currency. The Company’s operating expenses are incurred primarily in Canadian dollars, its assets in British Pounds, and its liabilities are denominated primarily in Canadian dollars, or US dollars. The fluctuation of the Canadian dollar will, consequently, have an impact upon the reported profitability of the Company and may also affect the value of the Company’s assets and liabilities. As of June 30, 2023, the Company held cash in Canadian and US Dollars, therefore would incur some currency risk in its position. If the CAD/USD FX rate increased/decreased by +/-10%, then the resulting change in USD cash balance would increase/decrease by \$14/(\$14). The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

#### *Liquidity Risk*

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with its financial liabilities. The Company has historically relied upon equity financings, and short-term debt to satisfy its capital requirements and will continue to depend heavily upon these financing activities. All of the Company’s accounts payable and accrued liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms. The Company is exposed to risk that it will encounter difficulty in satisfying liabilities on maturity. The loan is an unsecured promissory note. There can be no

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

assurance the Company will be able to obtain required financing in the future on acceptable terms. The Company will need additional capital in the future to finance ongoing expenses, such capital to be derived from the exercise of outstanding stock options, and, or the completion of other equity financings. The Company has limited financial resources, has no source of operating income and has no assurance that additional funding will be available to it for future development of its projects, although the Company has been successful in the past in financing its activities through the previously mentioned financing activities. The ability of the Company to arrange additional financing in the future will depend, in part, on the prevailing capital market conditions, and underlying success of its investments. In recent years, the securities markets have experienced wide fluctuations in price which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that continual fluctuations in price will not occur. Any quoted market for the common shares may be subject to market trends generally, notwithstanding any potential success of the Company in creating revenue, cash flows or earnings which are subject to risks around the Company being able to operate as a going concern (see Note 1)

### *Price Risk*

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors the commodity prices of iron ore, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. The Company's marketable securities amounting to \$26,679 are subject to fair value fluctuations. As at June 30, 2023, if the fair value of the Company's marketable securities had decreased/increased by 10% with all other variables held constant, income and comprehensive income for the period would have been approximately \$2,668 higher/lower.

## **12 Subsequent Events**

### *Kings Chapel Loan Note*

On July 20, 2023, the Company entered into a loan note of USD1.2 million with Kings Chapel to fund general working capital requirements. The loan note attracts interest at 10% per annum, is unsecured and is repayable on the earlier of the date on which the Company receives gross proceeds from equity financing transactions of at least \$5 million and July 20, 2025. The loan will be drawn down in three tranches.

### *Maginito Completes Acquisition of HyProMag*

On August 3, 2023, Mkango announced that Maginito has completed the transaction to increase its ownership in HyProMag to 100% for a cash and share consideration.

### *BSL Subsequent Investment*

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF COTEC HOLDINGS CORP.

*(Unaudited – Expressed in Thousands of Canadian Dollars Unless Otherwise Stated)*

On August 4, 2023, BSL has secured an additional investment of USD17.5 million from Australian-based Mineral Resource Limited (“MinRes”). The fundraise was completed at a further significant increase to CoTec’s previously reported investment value.

*Lac Jeannine Option Agreement*

The Company signed an option agreement (“Option Agreement”) on August 8, 2023 to acquire 31 mining claims forming the Lac Jeannine Property (the “Property”) located in the Côte-Nord region of Quebec, Canada.

The Property contains historical tailings of the previous Lac Jeannine iron ore mine operated by the Québec Cartier Mining Company between 1959 and 1985. Prior to exercising its option to acquire the Property, the Company intends to complete a maiden resource estimate and extract a bulk sample from the Property tailings material. The bulk sample will be used for independent metallurgy testing and further testing with BSL of its cold agglomeration technology. If the results are positive, the Company intends to complete a feasibility study regarding the recovery and production of low cost and low carbon iron ore pellets from the Property applying the BSL technology.

Pursuant to the Option Agreement, CoTec will pay the vendor US\$40,000 within thirty days of the effective date, US\$60,000 nine months following the effective date (subject to certain conditions and subject to extension for 135 days to allow for completion of bulk testing), US\$250,000 on exercise of the option and US\$1,000,000 at the start of commercial extraction of the tailings. The Company may exercise the option to acquire the mining claims at any time until the earlier of (i) 15 business days after the issuance of all material permits required to construct and operate the Project and (ii) August 7, 2033. If the option is exercised, the vendor will also receive a 1% NSR from the sale of minerals from the historical tailings and a 1.5% NSR from the sale of other minerals from the Property. The 1% NSR and 1.5% NSR could be reduced, at CoTec’s option, to 0.5% and 0.75% through the payment of US\$1,000,000 and US\$2,000,000 respectively.
